# CHAPTER 1

## INTRODUCTION

Setting out the aims and objectives of your project, explaining the overall intention of the project and specific steps that will be taken to achieve that intention.

### 1.1 Motivation

Explaining the problem being solved.

### 1.2 Aims and Objectives

Aims and Objectives here.

### 1.3 Description of the work

Explaining what your project is meant to achieve, how it is meant to function, perhaps even a functional specification.

# **CHAPTER 2**

## **LITERATURE REVIEW AND THEORETICAL BACKGROUND**

Explaining what your project does that is new or is better than existing work in the same field [1].

Test citation by [1], some other text to nothing.

## **CHAPTER 3**

### **METHODOLOGY, RESEARCH DESIGN**

Containing a comprehensive description of the design chosen, how it addresses the problem, and why it is designed the way it is.

# **CHAPTER 4**

## **IMPLEMENTATION, RESULTS AND DISCUSSION**

Explaining how your software was tested (using different datasets or in different environments), statistical evaluation of performance, results of user evaluation questionnaires, etc.

# **CHAPTER 5**

## **CONCLUSIONS, RECOMMENDATIONS AND FUTURE WORKS**

Summarizes the research and recommends the future direction of this research. this paragraph is just for test. the test including the language(s) and platform chosen, problems encountered, any changes made to the design as a result of the implementation, etc.
