Chapter 1

How to use this template

1.1 frontmatter

This includes the file separately to make the editing easy for each file and their order:

1. title page 2. deceleration 3. Acknowledgement 3. Dedication

The table of contents, figures, and tables will list automatically, but you should write the caption for each one to make this TOC work.

1.2 textmatter

All the chapters are included here in the chapter folder. You can add as many chapters as you need. See the include command below.

1.3 Packages

textmatter/mypacks includes all the packages needed. You can add, delete or modify as your requirements

1.4 Figures

Inside text or images, you can make folder for each chapter to make easy to insert or edit them

1.5 Examples

1.5.1 Image with normal caption

1.5.2 Image with short caption

1.5.3 Table

You are advised to use this site to formulate all of your tables: www.latex-tables.com

For citation, you can change APA style and add the references to refs.bib [1]
